

NEW HAMPSHIRE

Loon is a great ski area in the heart of New England's White Mountains, and you get to ski **Cannon Mountain** too!

Having the choice of two great ski areas provides an ideal opportunity to design your own skiing itinerary thanks to the huge variety of runs on offer. The only difficulty you'll face here is which mountain to ski first! Loon has a good variety of beginner to intermediate trails with both expert and easy going runs.

Cannon Mountain, with its 160 inches of annual snowfall, 23 miles of trails, and a total of 9 lifts is also a great ski area, and well worth a look during your twin ski centre stay in New Hampshire.
