

AUSTRIA

Olympic City Innsbruck - The host city of the Winter Olympics in 1964 and 1976, this is the perfect place for a fantastic wintersports break.

The ski regions of Olympia SkiWorld Innsbruck, where snow is guaranteed, offer access to 285km of pistes and they are perfect for skiers, free riders, snowboarders and fans of powder snow. Distance from the hotel to the slopes is between a 15 minute (Patscherkofel) and 30 minute (Mutters) drive. Experience from the past shows that the groups are catered for whether they be beginners, intermediate or advanced school-children (and teachers)!
