

QUEBEC

Winter capital of the world

Blue skies, sparkling snow, City of Culture and endless apres ski possibilities - Quebec has it all.

MONT-SAINTE-ANNE

This city has to offer the most complete winter sports experience ever. Based in the historic walled city of Quebec a UNESCO World Heritage Site, groups have the opportunity to ski on World Cup trails in 720 acres provided by Quebec City's two outstanding ski areas. Mont-Sainte-Anne is the biggest range in Eastern Canada and offers stunning scenery across three mountain faces, whilst Stoneham's ski area covers more than 300 acres over four mountains.

This winter wonderland is further enhanced by a visit to the Village Valcartier where you can spend an exhilarating day enjoying the thrills and spills in this awesome winter sports park. The charm of Quebec City together with an action packed apres ski programme ensures schools return year after year.
