

## STOWE

### *Ski capital of the east!*

*The beauty and charm of New England with some classic trails and fun skiing!*

At the end of a picture postcard access road lies the ski resort of Stowe where Mount Mansfield towers above the Vermont peaks, providing both advanced and challenging skiing. It's neighbour, Spruce Peak, is connected by a short shuttle and is a whole mountain devoted to beginners and intermediates giving the resort a perfect balance for learners and experts alike. Mount Mansfield's "Front 4" are renowned throughout skiing circles for their challenge and difficulty but it is the fun beginner runs that appeal to the school groups, making Stowe a very special resort where groups come back to year after year. Huge recent investment in Spruce Peak has made it even better with new high speed chairs and the creation of Little Spruce and Big Spruce. These new facilities coupled with the existing Gondola and other high speed chairs make it a "must do" for East Coast trips! The small and very attractive typical New England town of Stowe is a perfect example of Vermont at its very best - charming shops, good restaurants, great hotels and ambience combined with the great skiing, to make this one of the very best American destinations.
